August 28th Performance at SkateWorld Contest @10:00am (tentative time)

*These practices will be 11:30-12:30 pending on availability of the rink.

FAQ

Q. **What is Precision Skating?**

A. Precision Skating is a team sport that has as few as 8 skaters and as many as 20. The routine is judged on skating quality, showmanship, and precision with each other. Competitions are held at the local level, regional level, national level, and world level! It is a great way for children to continue to practice their artistic elements in a fun group environment.

Q. **How much will it cost?**

A. The first class (June 18th) is a drop in class and is **FREE**. We will be covering some precision basics during this class. The purpose of this class is to try it out and see if Precision is right for your child! The **TRYOUT** class is also free! After that, the entire package of classes is \$70 dollars. The costume will cost between \$40 - \$65 (due July 30th). Entry fees to the Summer State Games will be \$10 (due August 13th). The total cost will be between \$120 - \$145.

Q. **What if my child cannot attend all the practices?**

A. It is extremely important that your child attend as many practices as possible. That being said, we understand that there are circumstances where your child may not be able to come. Please cross check the practice schedule with your own schedule to ensure that your child can attend at least 6 classes after the tryout. If your child is not able to attend at least 6 classes, please contact the coach (melindarenee@gmail.com) to make alternate arrangements.

Q. **What if my child does not know if he/she wants to participate?**

A. The first "drop in" class is designed for this reason. During this class we will be practicing basic precision skills. The purpose is for your child to see if it's something they would like to do! We will start working on the routine during the July 9th practice (the first scheduled practice after tryouts).

Q. **What will happen during the "Tryouts"?**

A. The "Tryouts" will be a time to evaluate that the skaters have the basic minimum skating skills to join the team. He/she should be comfortable with the following skills: skating forwards and backwards, t-stop on both feet, one foot skills such as flamingo and spiral, basic jumps (bunny hop, half mapes, and waltz jump), forward crosspulls in the regular and reverse directions, car and shoot the duck. If your child is lacking some of these skills, it may be recommended that he/she take private lessons with one of our coaches while participating in the Precision Team.
